

Flat or Circular? How to decide.

Sprang can be worked as a 'flat warp' or as 'circular warp'.
Which is right for you? Well, that all depends on what you are wanting to make.

For ideas to create shirts and vests, see Note C.

Note A

Two separate pieces means you need to set up a flat warp, and work from the edges towards the middle. When you get near the middle, cut across the warp, separating the work into two pieces. Tie knots to secure the work.

Socks.

Sew the rectangles into tubes. Gather the end loops together at the toe.

This could be a pair of socks.
or it could be a vest ... see Note C

Note B

To create a Mobius strip use flat warp to form a long, narrow strip. Then twist one end and sew the loops together.

Mobius strip
Flat warp

Note C

Three Vest Designs

Flat Warp

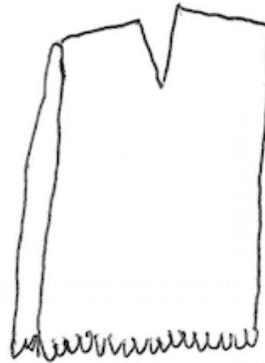

Cut into two pieces,
Front and back

Sew the loop ends together to form the shoulders creating a boat neckline. The cut ends form a fringe at the hem.

Flat Warp

All one piece

Work from hem towards the shoulders. Create a slit as you near the center (neckline). Chain across the shoulders.

Circular Warp

Begin at the shoulders with two separate warps. Join them at the base of the V neckline. Cut apart to form the hem.
